EVIDENCE TO ESTABLISH A CULTURE OF EVIDENCE-INFORMED TEACHING AND LEARNING

Education must be informed by evidence. We need to habitually ask the evaluative question, “What evidence is there that this activity, approach, program or practice has an impact on student learning outcomes?” Evidence of learning comes from a wide range of sources; outstanding teaching considers the evidence and adapts accordingly.

TEACHERS TO BUILD OUR TEACHERS’ INDIVIDUAL AND COLLECTIVE CAPACITY FOR CONTINUOUS AND SUSTAINABLE PROFESSIONAL IMPROVEMENT

The quality of teaching is the single biggest factor in shaping the learning outcomes for students. In the increasingly demanding world of school education, investment in and focus on the professional growth and development of teachers is essential in the quest for improved student learning outcomes. Teacher capacity includes the domains of professional knowledge, practice, engagement, performance, and wellbeing.

STUDENTS TO DEVELOP STUDENT AGENCY IN THEIR LEARNING, AS EXPRESSED IN THE INABURRA LEARNER PROFILE

Students are active participants in their learning, not passive recipients. The ILP describes the non-cognitive capabilities that will enable young people to thrive as life-long learners. Inaburra will increasingly incorporate these capabilities as key learning outcomes, along with the BOSTES curriculum outcomes.
