

PRIVATE MUSIC TUITION

There are over 20 tutors delivering high quality private tuition on most instruments. Private tuition is strongly encouraged in order for students to develop correct playing technique and maximise their enjoyment of music and performance under the guidance of an expert. Students are also encouraged to sit formal examinations on their instrument or voice as appropriate and private tutors can assist in the selection of appropriate repertoire and preparation for examinations.

Tuition arrangement, payment and timetabling are done directly between the student and tutor. Below are the contact details of all the tutors who operate through Inaburra School.
